Please find attached the Action Description Memorandum (ADM) for Replacement of Tanks T40, T66, T67, and T68, Modification No 1. The scope of the project, as described in the original ADM submitted under cover dated September 13, 1989, has changed. Specifically, activities related to replacement of tanks T66, T67, and T68 have changed. Please note that this modification is a complement to the original ADM, not a replacement. A copy of the original is also attached.

Please review this ADM for a determination of the appropriate level of NEPA documentation required. Contact Laura Frick, on extension 4643, if you have questions or need additional information.
